Did you know...

The Journal of Neurologic Physical Therapy (JNPT) is the primary peer-reviewed, indexed resource for advancing neurologic physical therapy practice through the dissemination of definitive evidence, translation of clinically relevant knowledge, and integration of theory into education, practice, and research.

**JNPT is proud to announce our inaugural Impact Factor of 2.205.**

JNPT ranks 11 out of 62 among Rehabilitation journals and 90 out of 192 among Clinical Neurology journals.

JNPT has...
- over 1500 Facebook and Twitter followers.
- 4,484 total individual subscribers.
- website page views that increased nearly 76% in 2012.
- over 170,000 full-text article views each year.
- over 615,000 page views each year.
- a full-text iPad app with over 3000 downloads.
- subscribers in over 45 countries.
- over 1600 print & online Institutional Subscriptions.
- an editorial board of internationally recognized experts
- Video Abstracts wherein authors describe their work.

The number 1 downloaded/viewed article published in JNPT in 2012 was:

**Vestibular Rehabilitation for Dizziness and Balance Disorders after Concussion** *(JNPT. 2010; 34(2):87-93)*
