**Overview:** Self-perceived questionnaire that evaluates the impacts of dizziness

**Scoring:** 25 questions; "yes" (4 points), "sometimes" (2 points), and "no" (3 points); total score ranges from 0-100; The higher the score the greater perceived dizziness

### Domains:

- 1) Functional (9 questions, 36 points)
- 2) Emotional (9 questions, 36 points)
- 3) Physical (7 questions, 28 points)

### Cut off scores:

- mild: 0-30
- moderate: 31-60
- severe: 60-100

**Vestibular MDC:** 17.18

**Vestibular MCID:** Pre-treatment and Post treatment would need to have an 18 point difference
