

Academy of Neurologic Physical Therapy Endowment Fund

Impact Report

We are deeply grateful for your partnership with the Foundation for Physical Therapy Research. Your ongoing support is not only generous—it is essential to advancing the work we do together. Because of you, researchers across the profession are able to pursue important questions, generate new knowledge, and strengthen the evidence that guides better care for patients everywhere.

We view this work as a shared effort. Your commitment helps create opportunities for discovery, fuels innovation, and supports a community of researchers dedicated to improving health and movement for all. Together, we are building momentum that will continue to shape and elevate the physical therapy profession for years to come.

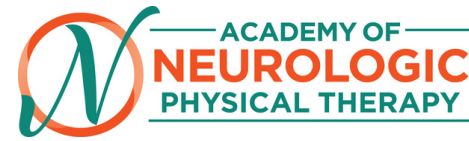

It is a privilege to partner with you in advancing research and expanding what is possible.

We have also included the fund reports that combine the Neurologic Physical Therapy Research Fund and the Isabelle Bohman Fund on pages 7 and 8. If you have any questions about the content in this report, please contact Barbara Malm, CEO, at barbaramalm@foundation4pt.org.
