

RESEARCH IN REVIEW

Dear Members,

We are pleased to bring to you the March 2021 issue of **Research in Review** highlighting research articles relevant to neurologic physical therapy over the past months. We hope that you enjoy perusing through the collection of articles we selected for this edition.

We select recently published articles that are available through a link on PubMed or directly through the link on the Research in Review citation. Please note that to avoid redundancy with other APTA-based research newsletters, typically, we do not include articles published in Physical Therapy or Journal of Neurologic Physical Therapy. We welcome any suggestions or comments you may have to help improve the newsletter. We hope that you enjoyed the recent [APTA-CSM conference](#) in virtual format.

Sincerely,

Research in Review Co-Chairs

Trisha Kesar, PT, PhD
Associate Professor
Division of Physical Therapy
Department of Rehabilitation Medicine
Emory University School of Medicine

and

Antoinette Domingo, PT, PhD
Associate Professor
Doctor of Physical Therapy Program
School of Exercise and Nutritional Sciences
San Diego State University

The Research in Review Editorial Team

Antoinette Domingo PT, PhD
San Diego State Univ. (Co-Chair)

Brendan Dougherty PT, PhD
University of Minnesota

Evan Papa, DPT, PhD
Idaho State University HSC

Elisa Gonzalez-Rothi, DPT, PhD
University of Florida

Trisha Kesar PT, PhD
Emory University (Co-Chair)

The Research in Review was designed using Medline filters to extract high impact research articles related to the field of neuroscience and physical therapy, which includes areas of motor control, rehabilitation, clinical neurophysiology, and technology. Emphasis is placed heavily on articles published within the last eight weeks, that cover issues related to spinal cord injury, stroke, balance and falls, brain injury, degenerative diseases, and vestibular rehabilitation. The list contains the full citation and a link to the abstract or full text article. The Research in Review is published once every 2 months and will arrive in your email box in a format that is easily viewable by both HTML and text-based readers. Articles with no volume, issue or page numbers indicate that the article has not been published in paper form yet, but may be available in electronic form through the publisher. We welcome requests for article postings at the first and third Mondays of each month. Those interested in assisting with this endeavor are welcome to contact Dr. Trisha Kesar or Dr. Antoinette Domingo.
